John Deere® 400 & 450 Series Rear Crankshaft Seal.

Reliance Parts Corporation is pleased to announce the availability of rear crankshaft seal NRE-520036. This new crankshaft seal is a unitized seal which is similar to the rear crankshaft seals currently being used in 300 Series engines. The new crankshaft seal can be used as a direct replacement for rear crankshaft seal part number NRE-22764 for all 400 Series and 450 Series engines.

We will continue to offer the NRE-22764 rear crankshaft seal. All 400 Series overhaul kits will include the NRE-22764 rear crankshaft seal except for 6076 applications. Additionally, we will include the new NRE-520036 rear crankshaft seals in overhaul kits for 6081 and 8.1 Powertech applications.

Shown below are the overhaul kits that will include the NRE-520036 rear crankshaft seal, effective September 1st, 2006.

RP-624	Major Overhaul Kit 6076
RP-665	Major Overhaul Kit 6076
RP-769	Major Overhaul Kit 6076
RP-770	Major Overhaul Kit 6076
RP-822	Major Overhaul Kit 6081
RP-823	Major Overhaul Kit 8.1 Powertech
